We can make a difference in your organization’s response and recovery from COVID-19.

08. Risk Assessment(s)

We can support a full risk assessment of your organization’s assets and help you prioritize the assets in case of an emergency.

07. Recovery Planning

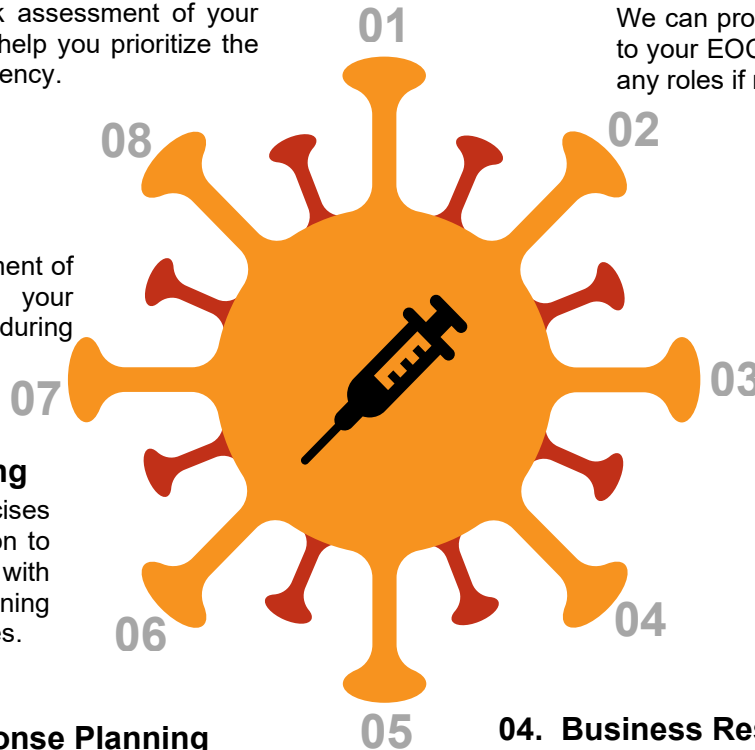

We can assist in the development of recovery plan(s) to fortify your organization’s resilience during future incidents.

06. Exercises and Training

We can develop specific exercises and training for your organization to test changes made to your plans with our extensive experience in planning and conducting HSEEP exercises.

05. Strategic Response Planning

We can develop a unique, tailored Strategic Response Plan to streamline your organization’s response to future incidents.

01. Active EOC Support/Advising

We can provide in-person, real-time support to your EOC staff, advise as needed, and fill any roles if necessary.

02. EOC Evaluation

We can evaluate EOC processes and response as staff are managing the incident..

03. Response AAR/IP

We can compile all our observations made during our support and evaluation of your EOC activation and develop a comprehensive AAR/IP.

04. Business Resumption/Continuity Plans

We can develop or revise your existing Business Resumption and/or Continuity of Operations Plans and recommend adjustments from lessons learned during the COVID-19 response.

One of Prestige Analytics’ strengths as an organization is our ability to recognize that you know your organization and industry better than we do. We know how to **leverage your expertise with our expertise** in emergency management, homeland security, and public safety.

We believe in the strength of building rapport with our clients and pride ourselves in being able to maintain positive professional relationships which allows us to offer **consistent services and products**.

Kim Nguyen, Managing Partner, Chief Executive Officer

Mr. Kim Nguyen has significant experience with the Homeland Security Exercise and Evaluation Program (HSEEP) format, training methodology and disaster response, with comprehensive knowledge in Homeland Security and emergency management particularly as it relates to exercise planning, design, conduct and evaluation. He has led and supported an extensive number of training and exercise projects that have enhanced emergency management programs throughout the United States.

Justin Cox, Managing Partner, Chief Financial Officer

Mr. Justin Cox has over 15 years of experience in emergency management, particularly as it relates to the HSEEP format, training and exercise planning, design, conduct and evaluation methodology. Mr. Cox has supported a significant number of training and exercise programs that directly influence multiple jurisdictions and agencies throughout the United States involving partners within the United States military, Federal, State, and local governments, non-profits, tribal organizations and private entities. Mr. Cox has proven experience in the development of countless after-action reports and improvement plans and is a master at identifying root-cause issues and implementation of corrective action programs.

Vince Ng, Managing Partner, Chief Operating Officer

Mr. Vincent Ng has over 15 years of experience in the emergency management space. Mr. Ng has served in roles as a Business Continuity Planner, EOC Responder, and Emergency Management Program Manager for several utilities in Southern California. Mr. Ng gained in-dept knowledge of utility operations, public private partnerships, and emergency response operations during his tenure as a Utility Emergency Manager. Mr. Ng was a pivotal player in the build of several utility emergency management departments in Southern California.

Jessie Obando, Analyst

Ms. Jessie Obando has several years of experience in emergency management planning, HSEEP-compliant exercises, and curriculum development. training and exercise planning. Ms. Obando's experience has focused on complex jurisdictions such as Ports as well as developing emergency plans for utility companies.
